Apply a credit to their first order or service, redeemable only if they showed up to the call.

14

Free Month or Free Trial Extension

An extra free month or extended trial for people who attend live, lowering the risk of saying yes.

15

Recording and Notes Pack

16

A Checklist or Cheat Sheet

A one-page checklist that solves a real headache for them, handed over live on the call.

19

Money-Back-Your-Time Guarantee

Promise that if they show and get no value, you will make it right. Removes the what-if-it-is-a-waste fear.

20

Leave With a Deliverable

The strongest one. Promise they walk away from the call with something finished and usable, not just notes.

How to use this list

Pick three to five that fit your business and stack them on your booking confirmation and reminder messages. Name the bonus, make it specific, and make clear it only applies if they show up live and on time. That single change is what turns a 40 percent show rate into an 80 percent one.
